A WALK THROUGH OUR YEAR

Kids are reporting feeling more depressed, anxious & isolated as a result of distance learning & sheltering in place. *

Luckily, Club Members & their families can count on us to do **Whatever it Takes** to stop the devastating impact of social isolation... even if it means operating 4 care models in 12 months!

1.
2021 started with virtual learning & support for Members in 12 locations. When schools closed, Clubs were open & taking care of kids!

2.
In Spring, hybrid learning began with afterschool & distance learning at 19 locations.

3.
By Summer, we were able to offer in-person summer camp for over 750 kids!

4.
In the Fall, we were serving kids in 27 Clubs throughout Sonoma County.

5.
By doing **Whatever It Takes** to care for kids, we served 3,157 young people last year!

In the new year, we will continue to do **Whatever it Takes** for kids to mitigate the trauma & impact of the last year (or two). We hope you will join us!
